

# GPPU activity report

Seidai Tairafune

Experimental Particle Physics Group

## ● Current status of GPPU credits

- 宇宙創成物理学概論 had already been taken in last spring semester.
- Courses in this spring semester : GPPU seminar, GPPU school, International training.  
(宇宙創成物理学特別セミナー, 特別講義, 国際研修)
- I don't have any GPPU points yet.
- I have continued to get in touch with researchers of the collaboration study and to hold the meeting with them weekly. This year at least, we can't and shouldn't interact with each other directly, so I want to continue to get in touch with them remotely and progress my study.
- I don't have any experiences and theses of presentation in International meetings etc yet.
